Forecast for Monday 01 Nov 2021

Weather: A lot of cloud expected through the day with periods of rain before somewhat drier weather later develops later in the day. Some wet snow can be expected above 1000 metres from late morning, perhaps some whiteout conditions developing above this height especially above 1200 metres. Elsewhere the best of the drier and brighter weather across Arran and southern Kintyre.

Chance of cloud free mountain/hill tops above 800m: 50%

Visibility: Generally poor in extensive low cloud down to 700 metres, this breaking up through the afternoon and evening especially in the south. Poor in summit snow with a good chance of whiteout conditions at times.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View

Winter conditions are expected on the higher tops, with gales, snow and severe wind chill. Cloud will be and additional hazard on the tops too. Burns may be in full spate following heavy rain over recent days. Note the freezing level shown in the table is around 200 metres too low. Best of the weather in the south and far east.

Forecast for Tuesday 02 Nov 2021

Weather: Mostly cloudy with occasional showers or longer spells of rain across Argyll, this falling as snow above 1000 metres or so. Best of the drier and brighter weather in the south of the region.

Maximum wind: Northwesterly 25 mph

Chance of cloud free mountain/hill tops above 800m: 50%

Visibility: Poor in cloud above 700 metres, this is likely to be quite widespread and persistent until mid-afternoon in the north of the area. Good visibility with patchy hill fog in the south.

Temperature: **Glens:** Plus 5 rising to 9 Celsius
At 800m: Plus 3 Celsius
Freezing level: 1100 to 1400 metres
